Construction and rehabilitation of facilities	14.04	13.04
National capacity building Program	11.00	8.20

Strategic Areas for coming years

- Expansion of BPHS coverage to > 95 % of population
- Implementation of Essential Package of Hospital Services
- Emergency, Epidemic Preparedness and Response
- Focus on quality of care
- Expansion of Midwifery Education

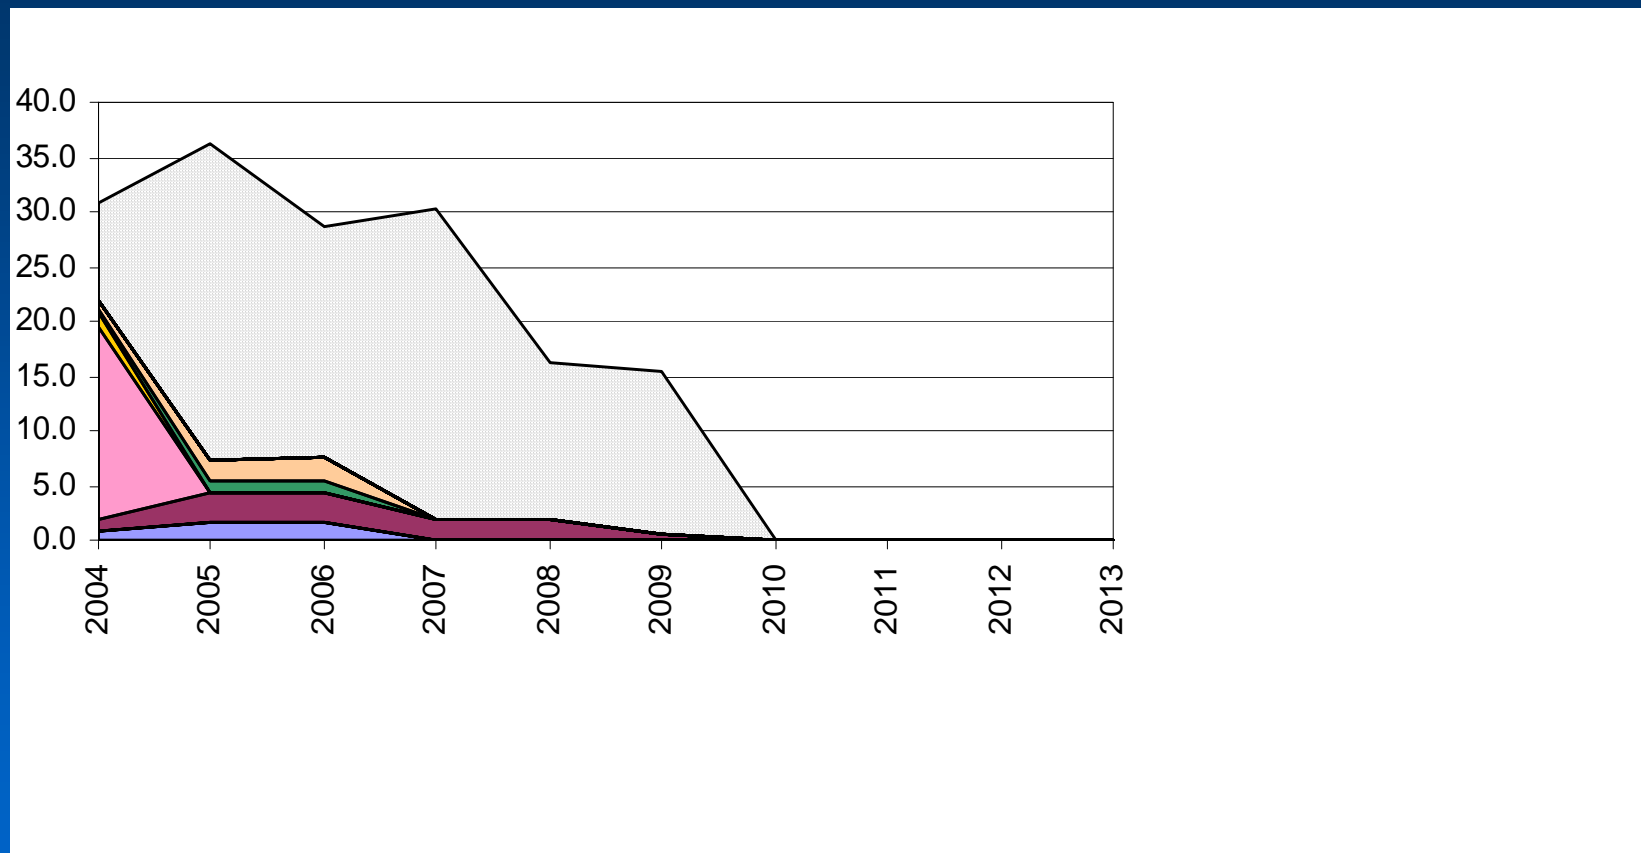

Strategic Areas for coming years

- Implementation of PRR at national level
- Implementation of national capacity building plan
- Implementing of health financing pilot schemes
- Establishing effective communication between the center and provinces
- Further improve coordination and collaboration with relevant sectors/partners

Challenges

- Filling the funding gap
- Long term planning and funding strategy
- Sustainability of established programs (e.g. EPI)
- Human Resource development and deployment
- Increased expectation of communities/government

EPI Financial situation (in US\$ M)

Gap 

Issues for discussion

- Need for the Sector is greater than current donors' fund allocation
- Additional donors ?
- Long term commitments ?
- Increasing Government contribution to H&N ?
- Proactive fundraising ?
- Health Trust Fund ?

THANK YOU
